

Basic Object Information

Title (Object ID) ARO CNC Panel System (mock up)
Designer Adam Yarinsky
Genre Model
Materials Deep bias-cut corrugated cardboard and other materials

Manufacturer

Theme Living Architectures
Height 96 in **Width** 36 in
Depth 1 in

Description Shown here is a scale study of the final panel. Changes in the perforations to the panel occur in a three-dimensional way across the surface, creating a complex, gradually changing skin with fluctuating transparency. ARO will provide a full-size panel for the exhibition.

Display method Hang from ceiling?

Special instructions and issues Lighting is important to the display of the object. The openings in the surface catch and hold light in a dramatic way, especially when the piece is lit from behind.

Additional credits

Loan type Unknown
New
New means object did not appear in Skin_02; new to Second Skin.
